

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, October 8, 2019 – 0530 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity:	Light (100 new fires)
New large incidents:	5
Large fires contained:	3
Uncontained large fires:***	6
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	1

Nationally, there are 11 large fires being managed under a strategy other than full suppression.
*** Uncontained large fires include only fires being managed under a full suppression strategy.

Rocky Mountain Area (PL 2)

New fires:	7
New large incidents:	0
Uncontained large fires:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	1

Decker, Rio Grande NF, USFS. IMT 1 (RM Type 1). Nine miles south of Salida, CO. Timber and light logging slash. Active fire behavior with uphill runs, flanking and backing. Numerous structures threatened. Evacuations, road, area and trail closures in effect. Sage-grouse habitat threatened.

Middle Mamm, White River NF, USFS. Previously reported incident. IMT 2 (RM Team Blue) mobilizing. Eleven miles south of Rifle, CO. Timber and brush. Moderate fire behavior with creeping, smoldering and short-range spotting. Structures threatened. Road, area and trail closures in effect. Reduction in acreage due to more accurate mapping.

Southern Area (PL 3)

New fires:	45
New large incidents:	3
Uncontained large fires:	4

Rockcastle, Kentucky DOF. Fourteen miles west of London, KY. Hardwood litter, tall grass and light logging slash. Minimal fire behavior with smoldering. Structures threatened.

Sky Bridge, Daniel Boone NF, USFS. Four miles southeast of Frenchburg, KY. Hardwood litter and brush. Minimal fire behavior with smoldering. Precipitation occurred over the fire area yesterday.

* **Powell Lease**, Texas A&M Forest Service. Eleven miles south of Eldorado, TX. Brush. Minimal fire behavior with single tree torching.

* **Cedar Road**, Alabama Forestry Commission. Three miles south of Bellamy, AL. Timber and short grass. Minimal fire behavior.

***Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

***Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov/>

Predictive Services Discussion: The frontal boundary in the East will begin to fall apart early in the day as it begins to approach the coast. However, residual shower activity will continue to positively affect the western halves of the Carolinas, North Georgia and northern Alabama. Temperatures will be average to slightly below average east of the Mississippi River. In the West, the ridge of high pressure will flatten into a westerly flow. This will allow a very weak disturbance to move east from California into the Great Basin. Impacts from this disturbance will be nearly nonexistent, perhaps only enhancing vertical mixing of potential smoke from area burns. A stronger but compact front will move into the Pacific Northwest early in the afternoon increasing winds west of the Continental Divide and reintroducing shower activity into the Cascades.

Escape Routes Take 5@2

Operational Engagement

Its 1400...you have been working all morning. How far away have your safety zones become? Safety zones are only good if you can reach them. How long will your escape route take? What is the condition of the crew? How long will it take your slowest member to get there? Are your expectations realistic?

Look at the times below...if your fire blew up right now, can you and every member of your crew make it to your safety zone?

Only Minutes

Loop, Griffith Park - **5 min**
Dude - **8 min**
South Canyon - **9 min**
Rainbow Springs, Spanish Ranch - **10 min**
Hauser Creek - **11 min**
Cart, Blackwater - **15 min**
Pepper Run - **17 min**
Cramer - **24 min**
Rock Creek - **30 min**
Tuolumne - **39 min**
Battlement Creek - **48 min**
Thirty-mile Canyon - **50 min**
Yarnell Hill - **52 min**
Blue Ribbon - **60 min**

Blowup to Burnover
